New Starting Time – 9:00 am

Social South: Marion's Pizza Kettering
 Third Wednesday of each month –
 15 October 08 19 November 08

North Social: Marion's Pizza Englewood
 First Monday of each month
 6 October 08 3 November 08

WOW Weekly Lunch – Every Tuesday at 11:30 at MCL Cafeteria at Far Hills and David Road

PRESIDENT'S NOTES
GARY TERBORG

As all of you now realize, this newsletter is coming to you soon after we've been "lked". A woodworker's dream is an infinite supply of wood – we almost got it if only it were all workable. I know I could be turning maple for the next 25 years.
 The first meeting of the year is fast approaching. Scott Phillips and Delta have an all morning show set up. It should be a great first for our club.

I hope everyone can still make Christmas toys for our "WOW Elf Program". If we need to make purchases of any parts(i.e. wheels, axils, etc.) contact Wayne Spurrier.

I'm keeping this short as I have no electricity and my notes are being hand written and have to be then entered in the computer for this newsletter.

VICE PRESIDENT
LARRY BILDERBACK

The agendas for our meetings are filling up fast for this year and we have some new and exciting presenters to keep your woodworking interest. Our topics for the meetings include: painting products, air compressors and air tools, spray equipment, staining and finishing products, power tools, veneering techniques, and furniture upholstery, to name a few.

Dennis Thomas is our meeting Chairperson for the October 4th meeting. Scott Phillips will be at the meeting and has teamed up with Michael Boie, Product Manager of the woodworking machinery group, for Delta, Porter Cable, and DeWalt line of products. Michael and his staff will bring many of the new tools they are developing for the market and ask us to test them. We get a chance to see the new tools before they hit the market and put our two cents worth in as to what we like and dislike. Included will be table saws, drill presses, band saws, hand tools, and air tools. It should be a hoot for all of us. We will be asking all attendees to get into 8 or so groups, and we will spend the morning moving from one product manager to the other reviewing their latest inventions. Michael said he would offer some incentive to us for our evaluations, so don't be shy.

In the afternoon **Mr. Steve Mickley**, owner of Hardwood and More will review finishing techniques and his insight into using the correct finishing materials on your next project. **Dale Zimmerman**, from Franklin/Tribond adhesives division, will share with us the mystery of adhesives and the right and wrong way to use their products.

Attached to this newsletter is the schedule for this year's meetings. If you have any comments or suggestions, please let us know and we will try and accommodate.

Home phone: 937-294-2147, or
E-mail: lrbilderback@aol.com

Sawdust for the Soul

"It is only by labor that thought can be made healthy, and only by thought that labor can be made happy, and the two cannot be separated with impunity."

John Rankin – 1856

MEMBERSHIP DENNY KUGLER, CHAIRMAN

I want to welcome our newest club members. Our club has many fine woodworkers in a wide variety of categories. You are sure to find others who share a like interest and with whom you can share ideas and methods.

One of the best ways to get to know who's who in the club is to get involved in one or more of our programs. There are many ways to do this: both big and small ways. So take advantage of the opportunity by talking with our President, Vice President, or any one of the Committee Members.

SEMINARS JOHN KNIGHT

There is a significant change to this years WOW Fall Seminar. First, after a discussion with the steering committee, we have decided to do a trial 'one day seminar' versus a two day seminar— We're hoping that a one day kitchen pass is easier to obtain than a two-day pass and it allows you, the attendee, to stay at home on Sunday and practice what you learned on Saturday. Second, we've dropped the price to \$30.00 for members and \$40.00 for nonmembers ... that's not all bad.

This Fall's feature will be **Glen Huey**, a Senior Editor at the Popular Woodworking Magazine published in Cincinnati OH. Glen regularly provides articles to Popular Woodworking Magazine and the new F&W publication WOODWORKING MAGAZINE.

The seminar will feature two topics: the table saw and inlay with a router. Glen will bring his own contractor saw and demonstrate joint making, pattern cutting, and other techniques that you thought could only be done on a full blown table saw. Glen will also show how he does inlay using a router. This is the same type of inlay that Glen did on the Pennsylvania Spice Box featured in Popular Woodworking December 2001 and February 2002 issues. If you have internet access you can see a picture at <http://www.popularwoodworking.com/magazineindex?mid=12064>. Part of the inlay demonstration will show how to do sand shading on the inlay pieces. There will also be time for Q & A's and a 'tricks of the trade' session.

SHOP TOURS HARRIS BARTINE

It has been two years since our last visit to **FRANK MILLER LUMBER**. So I gave **Josh Brennan** at **FML** a call and he has again graciously offered to conduct a facility tour for members of the Western Ohio Woodworking Club. The tour has been set up for 1pm on Friday, 17 October 2008. The tour should last about 60-90 minutes and will cover such things as log grading, bark removal, sawing the logs, sorting of cut lumber and the kiln drying process. FML specializes in quarter sawn oak. Frank Miller Lumber is a **BIG OPERATION**; they cut 40,000 board feet of hardwood a day and have been known to double that by going to two shifts a day.

These folks are very nice and the tour is an eye opener to the operation of a big sawmill. In addition, as they have done in the past, they offer WOW members the 1500 board foot price (that's 25% off) on small (or large) lots of wood. Also you can get business pricing (about 20-25% off) on exotic woods (visit their site to get more details www.frankmiller.com) and their new full line of hardwood plywood (oak, walnut, poplar birch). So come on out with your pickup, get a good tour and get a fine price on some wood to boot.

FML is located just over the Ohio border in the Indiana city of Union City on the outskirts of the west side of town. It is a little more than an hour's drive from Dayton. I recommend that you stop on the way up for lunch or brown bag it. The address is 1690 Frank Miller Rd, Union City, Indiana 47390. Plug this address into MAPQUEST.COM and get a map to their facility and outlet showroom where we will meet. Please call (937-236-0841) or email (hbartine@graphtronics.net or hvbartine@yahoo.com) if you intend to go so that I can tell Josh how many to expect so that he can set up the proper number of tour guides. Tips: Car Pool & save GAS \$\$\$\$. Bring ear plugs.

Have you got an impressive shop? Or even an unimpressive shop or a small shop, or a new shop or even an old shop. **NO SHOP IS UNINTERESTING** and it would be great if you would give me a call and arrange for a Saturday tour of your shop for interested club members.

This is a great way to share ideas on how to set up a shop and learn from your club mates and make new friends all at the same time. Please give me a call, Email me or just talk to me at the 4 Oct meeting or any meeting for that matter. It's a great opportunity for you to show off your shop to other WOW members.

hbartine@graphtronics.net or hvbartine@yahoo.com

WOODWORKING SOCIAL BOB HUTTER

Beer – Pizza – Talk about Woodworking

If you like any of these, you'll love the Socials.

If you can ever make it to the South Social you will always see several members of the Steering Committee, and you can find out more about what is going on in the club. We talk about projects, new products, and techniques. We always enjoy having new members join us.

"The South Social" at **Marion's in Kettering** on the third Wednesday of the month is located at 50 East Stroop Road which is on the southeast corner at the intersection of Stroop Road and Far Hills Avenue in Kettering.

"The North Social" at **Marion's in Englewood** on the first Monday of the month is located at 404 West National Road (US Route 40) in Englewood. Take exit 29 off I-70. Go 1.7 miles north; turn left, and west, onto US 40 go 0.3 miles. It should be on the left (south) side back in a strip mall.

If you have any questions or need directions, please call me at **937-657-7845**. Hope to see you there!

SCHOLARSHIP PROGRAM HARRIS BARTINE, CHAIRMAN

It's a new school year and the WOW Scholarship committee will soon be in the process of making the selection of our \$500.00 annual WOW Scholarship Award to some deserving young Ohio student at the Rio Grande University School of Fine Woodworking. I have been in contact with Eric Matson at Rio Grand and found that this years Fine Woodworking Program has 19 students (the same as last year): 9 freshmen, 5 sophomores, 3 juniors and 2 seniors. As per our rules, the freshmen and the out of state individuals (there are two) aren't eligible so that leaves us with a pool of eight that may apply for the scholarship. I will be sending the application forms to the school soon and after their return, the scholarship committee will proceed to Rio Grande College/University in the Nov/early Dec. time frame to make a selection.

Last years WOW Scholarship winner, Scotty Williams, has been working at Timber Creek Cabinetry, a high-end cabinet shop in Gallipolis (southeast Ohio). At the end of this month (Sept.) He is going to pull up stakes and move to Colorado to work on all those high-end houses that they build on the slopes of the Rockies. Good Luck, Scotty. We are still looking for items (old tools, small craft items, puzzles, wood toys etc.) to be sold at the Artistry In Wood Show in November. All the proceeds from the sale or auction of the goods will be put into the WOW Scholarship Fund. It would be greatly appreciated if you could find time to make and/or provide a toy or other wood item to this

very worthwhile cause. Give me a call or Email if you have any questions. The balance in the Scholarship Fund is growing daily as members send in their dues and Scholarship contributions **It is currently topping \$8000.00. Well done.** I'll provide an update in the next newsletter.

Harris Bartine, Ph. (937) 236-0841 or Email: hbartine@graphtronics.net or hvbartine@yahoo.com

CHERRY WOOD NAME TAGS DENNY KUGLER

You can order WOW cherry wood name tags at the 4 October general meeting. As with last year, the saw handle now has the date "1982" burned on it indicating the year that the club was founded, and the saw blade has "Jack Fisher - Founder" burned into it. As always the LOGO and your name will be Laser etched on solid cherry with a "pin-on" device on the back. Please don't ask for maple, Cy doesn't like to work with it cuz of the high failure rate of maple. Cherry is the preferred wood. **The price will be \$6.00 cash.** If you want one, bring me \$6.00 and your properly spelled name (the way you want it spelled on the name tag), if you can't make the meeting have a friend bring the six bucks and the name, or send it to me by mail. I prefer cash rather than a check so that I can give it directly to Cy. **My ph. #(937) 884-0051 My Address: 859 RedRiver West Grove Road, Laura, OH 45337-9612**

PROJECT CORNER JERRY FORNER

The project corner is a display area where WOW member's can show the membership their latest woodworking projects. It provides an opportunity for all of us to browse and admire the works of fellow members before the meeting and during breaks – providing motivation and ideas for our own time in the shop. Please consider bringing something you've recently completed to the October 4th meeting and qualify for our project corner prize drawing, **and don't forget, you can bring a jig or fixture.**

ARTISTRY IN WOOD JERRY FORNER

The Artistry in Wood (AIW) show will soon be upon us -- November 8 - 9, 2008 at the Dayton International Airport Exposition Center. This year's show will be a little different than "business as usual" for WOW. We will have more booth space than last year with ample table and floor space to display your woodworking project(s) and in addition we will sponsor a youth woodworking activity adjacent to our booth. You will have many ways to

participate in the show this year. I'll be asking for volunteers to attend the booth at the October meeting. The youth activity is described more fully in another article in this newsletter – please be sure to read it.

The **WOW display area needs your projects** to show greater Dayton the range of talent that resides in our active and productive club. Display of your projects at AIW is a good way of presenting the benefits of our club to the community. The great side benefit is that you have the opportunity for your projects to be entered in two contests at NO COST to you.

First, WOW will be conducting it's own woodworking contest. All displayed items will be reviewed by WOW judges with cash and ribbons awarded for first, second and third place in each of two categories – floor standing and table top items. Second, AIW has a large carving and woodworking contest which you have the option of entering at no charge. The AIW judging awards three "best of show" ribbons with cash, plus first, second and third place ribbons (cash for first and second) in numerous woodworking categories. Registration fees are paid by WOW – so all you have to do is "build it and bring it"!

Check out the Artistry in Wood information on the "Documents" page of our website at <http://www.westernohiowoodworkers.org/documents.html> for details on WOW contest rules and prizes. You'll also find a link to the Dayton Carvers website where you'll find the AIW woodworking categories, rules and prizes. Call me with any questions you have, particularly if you've never displayed at AIW before. Let's make this another good year at AIW for our club and show Dayton what we do!

Jerry Forner at 937-748-9480 jforner@woh.rr.com

YOUTH WOODWORKING JERRY FORNER

A new undertaking for WOW this year at Artistry in Wood is a youth woodworking booth where kids accompanied by an adult will be able to put together a simple woodworking project at the show and be introduced to some educational material about trees, a variety of woods, various types of joinery, and some interesting wood quizzes. Progress is well underway, but we need your help. We've formed a small committee which has met several times and decided on a group of projects suitable for kids from about 5 to 12 years of age. Committee members have made a few kits for each of these projects. We would like your help in building more of these kits so that we have at least twenty of each of the ten different projects. Contact the project focal point for a project you're interested in making and arrange to pick up a sample kit from which you can make additional copies. We will also have sample kits at the October 4th WOW meeting providing you an opportunity to pick them up at that time.

The kid's booth will have an entry adjacent to the WOW booth, with work tables set up in a curtained area behind the booth. The program will run during the full show hours, 10:00 AM to 6:00 PM on Saturday and 10:00 AM to 5:00 PM on Sunday (followed by an hour of tear-down and cleanup). I'll be signing up volunteers at the Oct 4th meeting to help kids assemble projects and support the WOW booth. We figure we'll need six people in the project area and three in the WOW booth at all times. Since that gets to be quit a few slots to fill, we're inviting willing spouses to help in the project area. So, how about finding out if your spouse is interested in a two or four hour shift helping the kids so you can sign her up when we pass the sheet at the meeting? And remember, all volunteers get free admission to see the AIW show when they're finished with their shift.

Committee member project contacts are listed below:

Dick Reese: small tote (toolbox) – 432-9993

Bill Bittner: three-legged stool – 885-4908

Marshall Stearns: hemp necklaces with wood medallions; yo-yo – 937 837-0728

Gordon Tamplin: bird feeder; Christmas decorations from trim slices – 937 426-4076

Jerry Forner: pencil holder; pencil box with sliding lid – 748-9480

Dennis Thomas: hot glue creations from scrap; modular cars – 937 524-1566

Malinda Knight: educational posters, wood samples, lighted magnifying glass, joinery samples, quiz boards with lights – 937429-7114

If you have questions, comments or want to help in any way, please contact **Jerry Forner at 937-748-9480 jforner@woh.rr.com** or **Dennis Thomas at 937-524-1566 sparky44256@yahoo.com**

WOW WEBSITE JOHN LYONS

<http://westernohiowoodworkers.org/>

We have tools/wood for sale on our website. Please check them out for possible adoption. You will get a gently used tool at a fraction of the cost of a new one.

If you have a tool or wood for sale, please send an e-mail to ohiolyons@yahoo.com to remove it when sold or update any changes. If you want to list an item for sale, send an e-mail to ohiolyons@yahoo.com with information concerning the item. Photographs are very helpful in closing the deal. The more information you provide the more likely your item sells. Always remember to include **WOW** in the subject line of your e-mails.

**CHRISTMAS TOYS
WAYNE SPURRIER**

Are you thinking of Christmas in September? If not think of the kids at Children's Hospital. If you are making a project that requires wheels, I have about 900, or I also have small mouldings and various other trim pieces that Alan Ryan from Woodcraft has generously donated. **Please remember this is all for the kids.** Last year was a great success, and we want to keep up the tradition. There are also a few plans on our website.

Contact Wayne Spurrier at 937-426-3523 if you need wheels or trim.

**FELLOWSHIP
DEL BOWER**

Get Well cards. If you are aware of any member that is ill or in the hospital, please let me know: **Del Bower: 937-434-0742** gandann13@aol.com. Put **WOW** in Subject Line

**TOOL PURCHASES
GORDON GALLOWAY**

Arrangements are being made for a tool and supply discount with **Hartville Tool in Ohio**. All club members will receive a first year discount of 20% off the retail price; all years thereafter the discount will be 15% plus 3% toward a club purchase.

Each club member will be sent a catalog. **I must provide them with your name and addresses which Hartville will use to 1) identify you as a club member, 2) send the catalog directly to you, and 3) track club member purchases.** Because this is personal identification information, I will only send your name and address if I get specific permission from you.

If you want to take advantage of the tool and supply discount from Hartville tool you must:

- Send me a letter or email telling me to, "**Send my name and address to Hartville Tool so I can receive the club discount.**"; or
- Sign up at one of the regular club meetings.

Gordon Galloway; 65 N. Grand Ave; Fairborn OH 45324 or gordon.galloway@sbcglobal.net

**CAD SIG
JOHN LYONS**

Members of the CAD SIG group meet from time to time to discuss working with CAD to design projects on computers. Bob Hutter contacted IMSI, the company that makes TurboCad for a possible group discount. Initial conversations indicated that we could get a substantial discount if at least 5 members would purchase TurboCad Deluxe. The proposed discount is \$69 for a \$129 software package. Bob Hutter is evaluating how easy TurboCad is to use and intends on making a recommendation concerning the joint purchase in the near future. The CAD SIG group meets on an AD HOC basis and does not have any currently scheduled meetings.

If you are interested in joining this WOW sub-group e-mail me and include **WOW** in the subject line of your e-mails.
